EDUCATION

B.Tech – Artificial Intelligence & Data Science
K. K. Wagh Institute of Engineering
Education and Research, Nashik
CGPA: 8.05 | Expected 2027
HSC – Matoshri College, Nashik
72% | 2023
SSC – Silver Oak Universal School, Nashik
ICSE | 95% | 2021

INTERNSHIPS

One Open Educare Federation (OOEF)
Nashik | On-site
Project Lead
Feb 2026 – Apr 2026
Built a full-stack application using Elixir, Apache and the MERN stack as part of a team; led coordination and delivery.

LANGUAGES

Hindi – Native
English – Fluent
Marathi – Native
German – B1 (Intermediate)

PARTH TUSHAR PAWAR

Enthusiastic Artificial Intelligence & Data Science (AI&DS) undergraduate skilled in Full-Stack Development (MERN), Data Structures and Algorithms, and System Design, with proven project-leadership experience across national-level hackathons. Passionate about learning new technologies and developing scalable software solutions.

PROJECT'S

MitraRide | Personal Project (Prototype)

Bike-pooling platform enabling college students to coordinate and share campus commutes; designed and built individually end-to-end.

Role: Sole Developer (Frontend, Backend & Database Design)

Tech: MongoDB, Express.js, React.js, Node.js, JWT Authentication, OTP Verification
GitHub: github.com/parth-pawarr/Mitra-Ride

Key Features: Real-time ride matching and trip creation, OTP-based rider verification for safety, JWT-authenticated sessions, and a responsive interface for browsing, posting, and booking shared rides.

Built RESTful APIs for ride creation, matching, and booking, and designed MongoDB schemas to manage user profiles, ride requests, and trip status end-to-end.

NESYA-AI | Team Project (Conceptual Prototype)

Neuro-symbolic AI system combining a rule-based legal reasoning engine with a machine learning model to assist in accurately drafting FIRs, mapping victim narration to the relevant Bharatiya Nyaya Sanhita (BNS) sections.

Role: Team Lead | Team Size: 4

Tech: Python, Rule-Based Engine, NLP/ML Classification

Key Features: A rule-based engine maps victim narration to the relevant BNS sections, while an NLP/ML classification layer interprets free-text statements to support accurate, consistent section tagging.

Led system design and coordinated a 4-member team from concept through a working prototype, aimed at reducing manual effort and inconsistency in FIR drafting.

CERTIFICATES

Full Stack Web Development – Delta Course

Dec 2024

Issuing Organization: Apna College

Machine Learning Specialization

Jun 2025

Issuing Organization: Andrew Ng, DeepLearning.AI (Coursera)

CO-CURRICULAR

Winner – Smart India Hackathon (SIH) 2023, Hardware Edition

Role: Team Lead | Team Size: 6

Winner – Smart India Hackathon (SIH) 2025, Software Edition

Role: Team Lead | Team Size: 6

EXTRA CURRICULAR

FOSS Club — Technical Lead

Phoenix (Departmental Club) — Creative Head & Social Media Team

TEDxKKWIEER — Personal Curator for speaker Bharat Chandak

TECHNICAL SKILLS

Languages: Python, JavaScript, JAVA, C++

Web & Backend: Node.js, Express.js, React.js, MongoDB, JWT Authentication

AI/ML: NLP/ML Classification, Rule-Based Systems

Tools & Others: Git/GitHub, Elixir, Apache, OTP-Based Verification Systems
